

Dear IFIA Members,

The last days of November are approaching and nearly one year of my presidency period is coming to a close. I would like to appreciate once again the trust you put in me while accompanying me in this journey.

During this period my colleagues and I struggled hard to collaborate with other IFIA members (without considering if they supported me in election or not) since I fervently believe cooperation and unity are the most required factors to strengthen IFIA. It is an undeniable fact that without the active cooperation of IFIA members it would not have been possible to have such a prosperous IFIA. The hard work and incredible perseverance of IFIA members has enormously contributed to the outstanding accomplishments of IFIA pre-established objectives.

As IFIA President, I would like to maintain and extend the cordial relations with all IFIA members in the years to come. IFIA counts on your unwavering support for any activity it undertakes.

It goes without saying that each of the members has their own specific potentials due to their location in various parts of the world and I truly believe that by the exploitation of these potential the existing knowledge gap would be diminished. Yet, reaching to this end requires further cooperation on your side.

I assure you that my whole mind and spirit is devoted to the interests of IFIA and the dissemination of the culture of invention and innovation. What matters now is for the members to feel the responsibility to further blossom IFIA potentials and make serious attempts to achieve the common goals.

I do hope that we can lead IFIA to the highest level of prosperity with due consideration in the upcoming years.

We would be glad to receive your views regarding the changes that has occurred in IFIA as well as your suggestions regarding the changes that you would like to witness in IFIA. Feel free to send us your nice comments.

Sincerely Yours,

Alireza RASTEGAR
IFIA President
