

Anatolia Inventions & Inventors Association (ABDER) is a professional association who carries out activities and works to contribute to the development of our country's technological development by improving our country's ability to make inventions and to increase the number of high level inventions.

Objectives;

1. To create partnerships with European and other International organizations to support Turkish inventors abroad and to help the others inventors in Turkey.
2. To organize invention exhibitions in Turkey and to participate to European and other regional international exhibitions.
3. To support a special event in Turkey namely "International Inventions Fair (ISIF)" orders to make recognize the excellence of the Turkish Inventors.
4. to animate conferences, seminars and workshops about invention, innovation and all topics relative to their initiation or concretization.

Organized events;

4th ISTANBUL INTERNATIONAL INVENTIONS FAIR / ISIF'19

Fourth ISIF took place between 17 – 22 September 2019 with 1.720.000 visitors together World's Biggest Aeronautics, Space and Technology Festival, TEKNOFEST.

ISIF'19 was held under the international patronage of IFIA, World Intellectual Property Organization and European Patent Office cooperation, honorary patronage of Ministry of Industry and Technology of Turkish Republic and hosted by Turkish Patent and Trademark Office.

384 invention and innovation from 22 countries were showcased during the event. Moreover, over 115 institutional participants include individual inventors, Science Parks, technology transfer offices, patent attorneys, important actors from intellectual property ecosystem, 38 universities from abroad and local, research center from Turkey and other participating countries showcased their latest innovative achievements.

2nd NATIONAL UNIVERSITIES PATENT COMPETITION

This project was held between 1st of July and 31st of December 2020 under the patronage of Turkish Patent and Trademark Office. With this project; aims to raise awareness about patents in universities, to equip students with technical information to be used in professional life or academic studies and to encourage students to invent activities that play an important role in the technological development of our country. Associate, undergraduate, graduate, doctorate students were included in this project. Around 1.320 projects have been patented free of charge and consultancy services were provided to each inventor. The award ceremony will be held on April 26, 2020, at IP day.

TECHANKARA PROJECT MARKET

This project was realized on 18 November 2020 together with Ankara Development Agency. The aim of this project; to strengthen the entrepreneurship ecosystem of Ankara, to implement and commercialize innovative ideas, and to ensure that the projects included in the event take place both locally and internationally. 356 innovative project applications were received for TechAnkara Project Market and the first 100 projects were identified as a result of the evaluations. Bilateral business meetings were held in order to bring the top 100 entrepreneurs together with private companies, angel investors and mutual funds, scaled entrepreneurs, social enterprise support mechanisms and public institutions.
