On behalf of International Federation of Inventor's Associations (IFIA), I wish to extend my sincere congratulations on the occasion of International Women's Day.

As we are all aware, from the very beginning of the history, women have exerted huge influences in the world and you as the women inventors certainly devote a larger proportion of the positive changes to yourself.

IFIA is proud of your courage, innovative ideas, talents, inventive activities that breathes life into IFIA, makes it grow and blossom.

It is undeniable that IFIA's existence is indebted to the contributions that have always been made both by women and men, equally.

To respect women rights and their empowerment, IFIA defines the theme of "Global Equality" in order to encourage the members for realizing and honoring the extraordinary works that women have done and the major role that they have played in the history of the world.

Sincerely Yours,

Alireza RASTEGAR
IFIA President
