

GENEVA THE HUB OF THE WORLD

Geneva is unique: a business and finance center, an international marketplace for goods, inventions, ideas and cultures, seat of the United Nations Office in Geneva, of the World Intellectual Property Organization (WIPO), of 440 international organizations and of 931 multinationals, this city is where one half of the world meets the other. It is an international economic crossroads, a meeting-place for philosophers, scientists, economists and entrepreneurs.

NEW INVENTIONS, SERVICES AND VISITORS FROM ALL OVER THE WORLD

The International Exhibition of Inventions of Geneva is the biggest event in the world to be exclusively devoted to inventions. All the novelties at this exhibition can only be shown here once.

Industrial and commercial companies, universities, inventors and researchers, associations, private and state organisms and institutes, present their inventions, the results of their research and their new products. Manufacturers, commercial agents and financiers will find 1000 absolute novelties ready to be marketed in the following fields :

Energy - Environmental Protection | Computer Sciences | General Engineering | Industrial Processes | Watchmaking | Electricity | Electronics | Building, Construction and Civil Engineering | Carpentry | Plumbing | Ventilation | Heating | Safety and Security Equipment | Ironware | Domestic appliances | Commercial and Industrial Equipment | Agriculture | Gardening | Textiles | Medicine and Hygiene | Optical Equipment | Teaching Aids | Transportation | Cars | Foodstuffs | Cosmetics | Health | Sports | Leisure | Practical Novelties | Publicity | Packaging | Toys and Games.

Stand of WIPO (World Intellectual Property Organisation) and IPI (Swiss Federal Institute of Intellectual Property)

The International Exhibition of Inventions of Geneva benefits from the most extensive support and privileges that can be granted to an exhibition. It is under the patronage of the Swiss Federal Government, the State, the City of Geneva and of the World Intellectual Property Organization - WIPO.

This support testifies to the usefulness and quality of the event, now acknowledged as the most important exhibition of inventions anywhere today. It is also the most international, with the participation of 42 countries.

PRESENTING YOUR INVENTIONS OR SERVICES

You have developed an invention that is worth selling. So you try to market your novelty. To do this, you have to contact manufacturers, commercial agents, financial backers or promoters who can distribute your product worldwide. By experience we know that to do this yourself will take you a long time and will cost you a lot of money without any guarantee of success. It could also be the case that your invention is already being manufactured and sold, but not in all countries where you would like to negotiate manufacturing licences or seek new business outlets. It is to eliminate precisely these difficulties and to enable you to get in direct contact with thousands of professional buyers from all over the world that Palexpo organizes, for you, the International Exhibition of Inventions of Geneva. It is the safest way to make you better known and to enable you to market your invention.

YOU SHOULD EXHIBIT TO:

SHOW your invention, new product or new technique, your capabilities, your activities and your services to businessmen visiting.

TURN YOUR INVESTMENTS INTO PROFIT by protecting and developing your invention through the negotiation of licences.

MEET AND MAKE FRUITFUL CONTACTS with manufacturers, commercial agents, promoters, financiers, users and entrepreneurs of all kinds, both national and international, who come especially to this Exhibition from many countries.

PUBLICIZE the fruits of your research to professional business visitors, journalists and the public at large in order to hasten their acceptance on the marketplace. Grasp every opportunity that the biggest specialized event devoted entirely to inventions can offer.

BENEFIT directly from advertising and media coverage.

WHO CAN EXHIBIT?

Manufacturing and commercial companies and enterprises | inventors and private researchers | consultancies | laboratories | universities | private and state-owned research institutes and other organizations | patent brokers and promoters of innovation | associations and similar bodies | service and financial organizations | publishers | regional, national and international organizations.

PRIZES AND AWARDS

The International Jury made up of 82 specialists will judge each invention exhibited and will select a number of them for prizes and awards. Thanks to the competence and standing of this Jury, we can state with confidence that the prizes given will eloquently certify the merit of the winning inventions and will be a substantial help in their commercial launching.
